

Feedback on 'Enhancement of Communication Skills' Programme at Mysore
(2010-12 Batch)

"The unforgettable experience with passionate studies can be a single line for the visit to Mysore as in Mysore. Both the 'teachers' Prof. Soundarajan and Prof. Ramnarasimha both were so enthusiastic and passionate towards their profession that the programme just enhanced our English speaking skills and developed great confidence in us and reduced the stage fear. Hence we would love to have such more classes in future sir. Thanks for the trip sir"

"Speaking honestly, it was a great experience in Mysore. We come in contact with new knowledge. The workshop conducted at Bhavan's Institute of Management was highly appreciable. The professors who taught us nuances of spoken and written English were excellent.

The joy of Mysore city and hospitality was unparalleled and we hope that in future we will be given this type of opportunity to enhance our knowledge.

Our Mysore trip was splendid. We got lots of knowledge and information from the professors. They had build confidence in us. They followed a new way of teaching which built enthusiasm in us. They removed the stage fear of many students by giving platform to a speak and presenting properly through role plays. They also implemented a new method through which we can send emails to them regarding any doubts, meanings and also our voice recording clips so that, they can suggest improvement.
